oputehelen18@gmail.com

PROFESSIONAL SUMMARY

Detail-oriented Software Developer and QA Test Engineer with experience building responsive web applications, leading frontend development, coordinating projects, and validating software quality. Skilled across the software development lifecycle, with practical experience in API testing, regression testing, test case design, defect tracking, frontend engineering, Agile collaboration, and stakeholder coordination. Strong problem-solving and debugging abilities, with a focus on maintainable code, reliable solutions, and products that meet user and business needs.

CORE SKILLS

Management	Development	Testing & QA
• Project Management • Project Coordination • Stakeholder Management • Cross-Functional Leadership • Agile Methodologies	• Frontend Development • Web Development • React • JavaScript / UI Development • Git Workflows	• Jest & React Testing • Playwright • Postman • Swagger & Bruno • Unit & Integration Testing

PROFESSIONAL EXPERIENCE

Project Manager

07/2026 – Present

Esma Project, Lagos, Nigeria

- Led project planning sessions to define project scope, deliverables, and priorities.
- Managed project timelines and schedules to support effective delivery against deadlines.
- Coordinated cross-functional teams to maintain alignment, communication, and progress.
- Facilitated stakeholder meetings to gather requirements, clarify expectations, and address concerns.

QA Test Engineer

06/2026 – Present

Elsoft Tech Hub, Lagos, Nigeria

- Performed API testing using Swagger, Postman, and Bruno to validate endpoints, request/response behavior, authentication, authorization, and error handling.
- Designed and executed test cases and test scenarios covering application functionality, usability, data integrity, and expected business requirements.
- Executed regression testing after new features, bug fixes, and backend changes to ensure stability of existing functionality.
- Identified, documented, and tracked bugs with clear reproduction steps and relevant evidence to support efficient issue resolution.
- Collaborated with frontend and backend developers to investigate defects, reproduce issues, and verify fixes, improving overall software quality.

Senior Frontend Developer

12/2024 – Present

Elsoft Tech Hub, Lagos, Nigeria

- Developed ESMA (Elsoft School Management Application), a multi-tenant platform designed to support efficient operations across multiple schools.
- Coordinated with backend and frontend teams to design, implement, test, and integrate features across application modules.
- Led development teams in building application features, dashboards, and user interfaces while coordinating tasks and delivery timelines.
- Partnered with developers, QA, and project stakeholders to identify issues, enhance functionality, and deliver reliable software solutions.

Bafuto Tech Institute, Lagos, Nigeria

- Designed engaging lesson plans for technology courses at Bafuto Tech Institute.
- Facilitated hands-on training sessions using current technology tools and software.
- Evaluated student performance and provided constructive feedback on assignments.
- Mentored students in practical applications of technology concepts and skills.
- Implemented instructional materials and curriculum to meet specific program needs.
- Guided teams in Agile methodologies, Git workflows, and project-based collaboration.

EDUCATION & TRAINING

Lagos State University
Lagos State, Epe

Bachelor of Engineering (B.Eng.)
Industrial and Systems Engineering
Expected: 10/2030

Bafuto Institute
Lagos, Nigeria

Full Stack Development
Bachelor of Technology: Web Development
07/2023

PROFESSIONAL STRENGTHS

Area	Strengths & Experience
Software Quality	Test planning, API validation, regression testing, defect reporting, and verification of fixes.
Frontend Engineering	Responsive interfaces, application features, dashboards, React-based development, and team collaboration.
Project Leadership	Scope definition, scheduling, stakeholder communication, cross-functional coordination, and delivery tracking.
Technical Training	Hands-on instruction, lesson planning, student mentoring, assessment, and practical technology education.
