

Helen Opute

SENIOR FRONTEND DEVELOPER

✉ oputehelen18@gmail.com ☎ 07063953713 📍 Lagos, Nigeria 🔗 [linkedin.com/in/helen-opute-7239a8292](https://www.linkedin.com/in/helen-opute-7239a8292)

PROFESSIONAL SUMMARY

Frontend Developer with experience building responsive, user-friendly web applications using React, TypeScript, JavaScript, HTML, and CSS. Skilled in developing reusable UI components, integrating APIs, and collaborating with cross-functional teams to deliver reliable software solutions. Brings additional experience in software quality assurance and project coordination, with a strong focus on functionality, maintainability, and delivering solutions that meet user and business requirements.

SKILLS

Frontend Development — HTML5, CSS3, JavaScript (ES6+), TypeScript, React.js, Next.js, Tailwind CSS.

UI Development — Responsive Web Design, Reusable Components, Component-Based Architecture, UI Implementation.

API Integration — REST API Integration, Axios, JSON, HTTP Methods, API Error Handling.

Version Control — Git, GitHub, Gitlab, Gitea

Development Tools — Visual Studio Code, npm, pnpm, Vite.

PROFESSIONAL EXPERIENCE

Senior Frontend Developer

Elsoft Tech Hub

03/2024 – Present

Lagos, Nigeria

- Developed ESMA (Elsoft School Management Application), a multi-tenant platform designed to support efficient operations across multiple schools.
- Coordinated with backend and frontend teams to design, implement, test, and integrate features across application modules.
- Led development teams in building application features, dashboards, and user interfaces while coordinating tasks and delivery timelines.
- Partnered with developers, QA, and project stakeholders to identify issues, enhance functionality, and deliver reliable software solutions.

QA Test Engineer

Elsoft Tech Hub

01/2025 – 12/2025

Lagos, Nigeria

- Performed API testing using Swagger, Postman, and Bruno to validate endpoints, request/response behavior, authentication, authorization, and error handling
- Designed and executed test cases and test scenarios covering application functionality, usability, data integrity, and expected business requirements.
- Executed regression testing after new features, bug fixes, and backend changes to ensure stability of existing functionality.
- Identified, documented, and tracked bugs with clear reproduction steps and relevant evidence to support efficient issue resolution.
- Collaborated with frontend and backend developers to investigate defects, reproduce issues, and verify fixes, improving overall software quality.

Frontend Instructor <i>Bafuto Institute of Technology</i> • Taught frontend development concepts including HTML, CSS, JavaScript, and React. • Guided learners through hands-on projects to strengthen their understanding of modern frontend development. • Created and delivered practical lessons focused on responsive web design, user interfaces, and development best practices. • Mentored students through coding challenges, debugging, and project development.	08/2024 – 01/2025 Lagos, Nigeria
